

Name of the Experiment

July 30, 2026

Author List:

- Author Name 1 (Student ID1)
- Author Name 2 (Student ID2)
- Author Name 3 (Student ID3)

Aim of the Experiment

%Describe the aim and the design specifications%

Materials Required

%List of materials in bullet points%

Theory

%Describe in bullet points the setup provided for the experiment%

Procedure

- %List out the steps you took as you built your solution%
- %These steps need not always have fruitful outcomes so elaborate on reasons of failure or success%

Observations and Results

- %List out your observations of your setup's performance%
- %Describe in bullet points your steps to record performance and the post performance analysis method eg. Excel or Python or MATLAB etc.%
- %Attach the graphs/images obtained from your post performance analysis%

Graph title 1

Graph title 2

Graph title 3

Graph title 1

Graph title 2

Graph title 1
